

By joining the FRET21 scheme

**IS COMMITTED TO
REDUCING THE
ENVIRONMENTAL IMPACT
OF TRANSPORTING ITS PRODUCTS**

TARGET FOR THE 2023-2025 PERIOD:

A 34% REDUCTION IN GHG EMISSIONS*

*That is -112 tonnes of greenhouse gas emissions**

This is equivalent to the emissions produced by
manufacturing, consuming, or travelling:

26 years
of heating**

4 681
cotton jeans**

3 606
smartphones**

487 020
Kilometres travelled
by plane **

Joining FRET21 represents a shared environmental initiative,
supported by all employees.

* GHG: Greenhouse Gases.

** Figures obtained using the CO2 DATAGIR converter from ADEME.
